Community

**Organisation Involved**  
Normanton Common Primary School  
Fire Safe Campaign

Caddick Construction completed the new build Normanton Fire Station in February 2011 which is situated in a built up residential area.

With the 2010 summer holidays coming up, Caddick Construction visited the local primary School to give a talk to the children about the dangers of playing on construction sites.

*"Working with Caddick gave the pupils an opportunity to work with a real life development in our community. The focus on Fire Safety complemented our 'Stay Safe' work in school very well.*

*A big 'Thank You' from all of us at Normanton Common Primary School."*

**Normanton Common Primary School**

As part of the talk we set the pupils a poster competition to create a poster warning other children of the dangers of building sites. Five children's posters were selected and their posters were displayed on the fencing around the fire station site.

Caddick Construction also sponsored Normanton Common Primary School with the Fire Safe Campaign; 'Fizz and Friends' to educate young children on fire safety.

'Fizz and Friends' are packs designed to engage young children's imaginations by being informative but in a fun way.
